

“Thank you for saving my life!”

— Tina Cantrell —

Tina Cantrell (third from top) was in severe pain when she came to White County Community Hospital. Dr. Hebert Smith decided to keep Tina overnight, even though a CT-Scan did not reveal anything wrong. That decision saved Tina's life. Early the next morning, Tina suddenly started to bleed profusely. Fortunately, Dr. Kalyani Kumar (second from top), a gynecologist with White County Community Hospital, was just a few feet away. “It was just amazing how quickly people responded,” says Tina. “Kellie Delong (top) and Callie Cross (bottom) were a real blessing. Everybody treated me like I was family. They saved my life!”
